

LAXFORD

— ENGINEERING —

*Automating the world
efficiently with quality products.*

About the Company

With 20 years of experience in the industrial sector, we provide fully automated systems from design to installation for Fortune 500 companies.

Operating as Laxford Industrial Equipment Trading L.L.C in the United Arab Emirates, Laxford Enigeneering has been supplying high quality automation services to the food and beverage industry for 20 years running. Thanks to the experience and knowledge we gained, we are a trusted supplier for many multinational brands in the MENA and Asian regions.

Laxford always thrives to be the leading innovator in the industry in order to provide our clients with the skillset and one-of-a-kind solutions only we can deliver.

Yousef SHREIM
President & Chairman

One-of-a-kind technologies for material handling solutions and industrial automation are our business.

We deliver high-tech automated systems for difficult environments: strict space requirements, pharma-grade cleanrooms or complex material flows. All with the same efficiency as large-scale solutions.

Operations

The Operations team based in the Dubai head office supports our global efforts in the regions Middle East, North Africa and North America. Administration and Human Resources are the foundation for our ongoing success.

Engineering

Design, Application work, After-Sales Service and Components: Material Handling Solutions are our specialty. Our engineering department is installing complex integrated solutions for Fortune 500 companies around the world.

Finance

Intelligent finance is the backbone of a modern company. We are always a step ahead of our financial needs, from financial analysis and budgeting to investment opportunities.

COMPANY

Quality

We pride ourselves on delivering highest-quality products and services. Our multinational clients trust us to engineer even the most complex integrated solutions according to their global standards.

Efficiency

“Lean solutions” is not just a phrase to us. Laxford engineers allocate resources more efficiently than any of our competitors. All without compromising on quality.

Customer Satisfaction

Our ongoing after-sales service team is at your disposal around the clock to ensure your satisfaction. Our customer retention is among the highest in the industry.

PEOPLE

Commitment

Our products are more than just the material handling solutions we install for you. Our friendly and competent staff is available to you whenever you need them.

Integrity

We vouch for all of our products. If something does not meet your expectations, we will do everything in our power to ensure your satisfaction.

Always Learning

We firmly believe in what we stand for: “Excellence in Automation”. Continuous staff training and workshops guarantee highest quality standards.

ENVIRONMENT

Awareness

The integrated solutions we provide to our clients use environmentally friendly components and none of the harmful lubricants of comparable products.

Job Security

Talent should be cherished. We believe that the most efficient cost savings are in supply chain optimization and technological advances, not our staff.

Social Responsibility

Education is the key to our future. The Laxford Group engages with schools around the world to enable students access to modern, scalable technologies.

Plastic Chain Conveyors

- | Intelligent design: modularized components are compatible with most production lines.
- | Reclaim floor space: custom elevations & material flow speed enable increases in production capacity.
- | More accessibility for operators.
- | Stainless Steel & Aluminum.

Complete Packaging Solutions

- | Automatic forming & sealing of cartons with customizable machines.
- | Reduce your total costs.
- | Minimize the environmental impact of your production line.

Aero Mechanical Conveying Systems

- | Small, efficient motors drive internally circulating rope assemblies at high speed.
- | Raw material is fed into the system at the bottom housing.
- | Material is suspended in air pockets & propelled to a collection point.

Puck & Pallet Handling Systems

- | Complete systems for handling of individual products on pucks or pallets.
- | Sophisticated line control & monitoring software handles controlled flow of individual products through the manufacturing process.

Modular Wide Belt Conveyors

- | Stainless Steel Conveyors: Durable, versatile, easy to clean & sanitize.
- | Aluminum Frame Conveyors: high quality, dependable & reliable – shift after shift.
- | Highly customizable for any processing application.

Low Profile Belt Conveyors

- | Modern drive rollers enable smooth product transfers.
- | Ecologically responsible with V-guided belts for maintenance-free belt tracking.
- | Maintenance-free brushless DC motors.

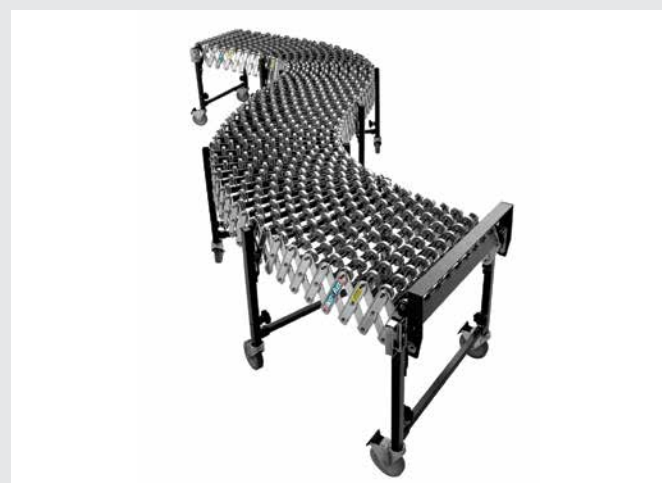

Roller Conveyors

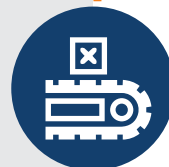

- | Flexible and modular concept.
- | Complete line of standard & specially designed pallet conveyor systems.
- | For transportation & accumulation operations in manufacturing, warehousing, & distribution.

Expandable Conveyors

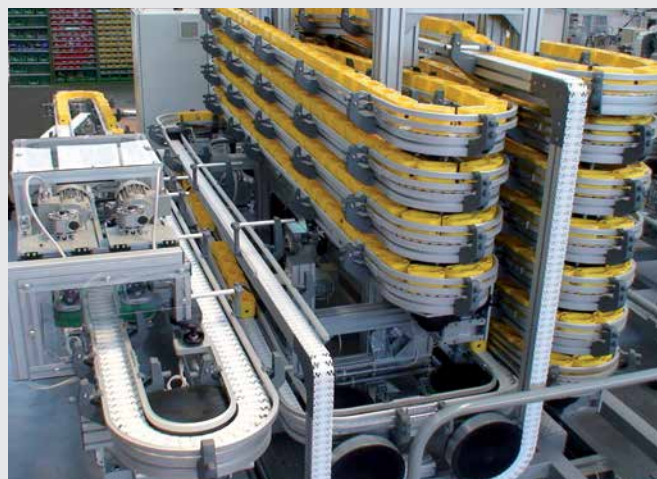

- | Rollers and skatewheels.
- | Complete line of gravity and powered expandable, flexible conveyors.
- | Highly adaptable, for temporary or permanent flexible conveying needs.

Accumulation Conveyors

- | Minimum or Zero Pressure Conveyors.
- | Spiral shaped Conveyors (Alpine Conveyors).
- | Serves as accumulation/buffer zone between machines.

Wedge Conveyors

- | Parallel conveyor tracks provide fast & gentle transport for uniform product sizes.
- | Horizontally & vertically.
- | Aluminum & Stainless Steel.
- | Adjustable lane width.

Spiral Elevators

- | Transport products vertically to bridge height differences or create buffer zones.
- | Compact design & high throughput.
- | Lossless, continuous product flow.

Vertical Conveyors for Products & Pallets

- | Versatile & cost-efficient.
- | Lift boxes, cases, trays, or bags to & from any height you desire.
- | Quick transport: maximum capacity of 2,000 products per hour.

Pallet Handling Systems

- | Complete line of standard & specially designed pallet conveyor systems.
- | For transportation & accumulation operations in manufacturing, warehousing, & distribution.

Keramik

- | Standalone applications & complex packaging systems.
- | Hassle-free software solutions that just work.
- | Minimal systems knowledge needed to operate robotics.
- | Continuous client-facing support.

Pallet Wrapping Systems

- | Heavy-duty construction & category 2 safety features.
- | Expansive selection of turntables, arms and rotary ring pallet wrappers.
- | Stretch & shrink wrapping.
- | Semi-automatic & fully automatic solutions for every need.

Pneumatic, Hydraulic & Electric Solutions

- | Stainless Steel air cylinders, actuators, valves, grippers, sensors & switches.
- | Easy-to-use, reliable & ready for any engineering challenge.

Automated Control Systems

- | Fully automated systems for your material handling needs.
- | Wide range of applications from individual conveyors to integrated systems.
- | Customized control systems.
- | Operator interfaces (HMI).
- | Supply, installation & commissioning.

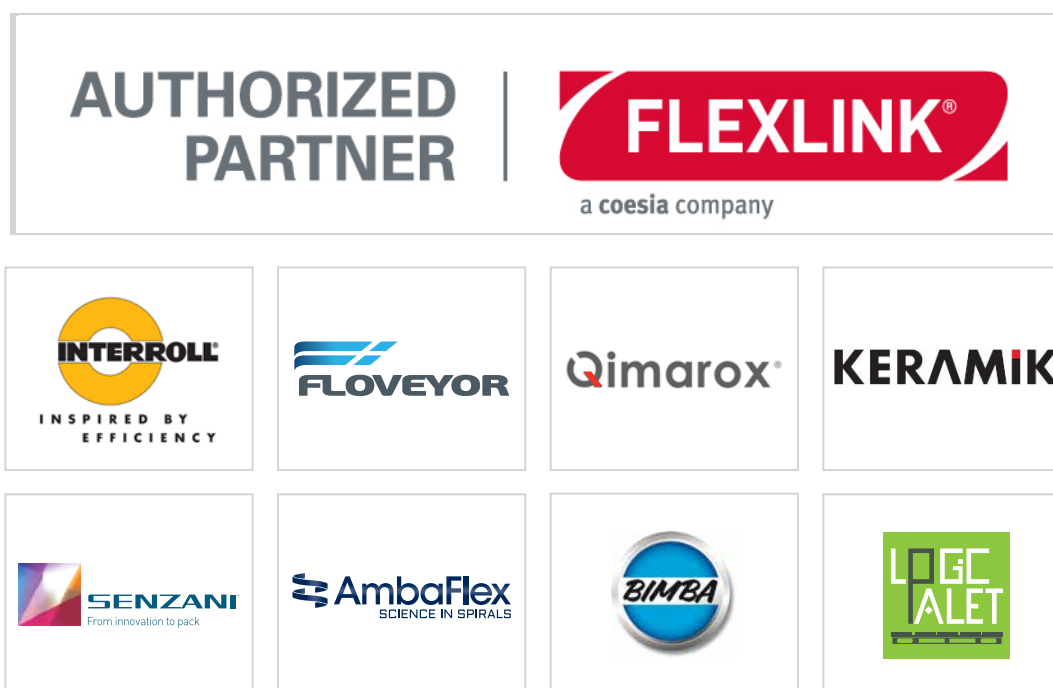

Our Valuable Clients

A Trusted Partner

With 20 years of experience in the industrial sector, we provide fully automated systems from design to installation for Fortune 500 companies.

LAXFORD GROUP

Doing better every day.

Leading the way to innovation, the Laxford Group aspires to serve our clients at the intersection of artificial intelligence and industrial design. We believe that advances in technology are the foundation of any successful venture in capital markets, automation and cloud migration.

With Laxford, you will always be ahead of your competition.

Our world-class technology team employs state of the art cloud technologies to track investment opportunities across the economic landscape. Driven by our proprietary algorithms and secured with the newest encryption standards, Laxford identifies the technologies and products of tomorrow to deliver enduring and strong performance.

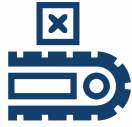

We protect our client's data against fraud, theft and prying eyes whilst adhering to today's regulatory landscape.

Laxford Industrial Equipment Trading L.L.C has been supplying high quality automation services to the food and beverage industry for 20 years running. Thanks to the experience and knowledge we gained, we are a trusted supplier for many multinational brands in the MENA and Asian regions.

We always strives to be the leading innovator in the industry in order to provide our clients with the skillset and one-of-a-kind solutions only we can deliver.

A complete, systematic approach to modern challenges is the Laxford way. To thrive in today's market place, our clients require integrated digital solutions: HTML5 Web-Design, Search Engine Optimization, Social Media Campaigns and Cloud Management go hand in hand.

With Laxford Digital, you can focus on your core products and leave your digital presence in competent hands.
